

Sherman Brook

Sediment, Flooding, and Debris Study

PUBLIC MEETING

Due to continued flooding, debris supply and sediment movement, the Town of Kirkland will complete a Sediment, Flooding and Debris study to evaluate sources and causes and identify potential solutions.

Please join us for an in-person public meeting where we will share information about the project and seek your knowledge, experience, and feedback.

Public Meeting Details

Thursday, February 16, 2023

6:00 - 7:30 pm

Kirkland Town Offices

3699 State Route 12B

Clinton, NY 13323
